10 NOV 1963

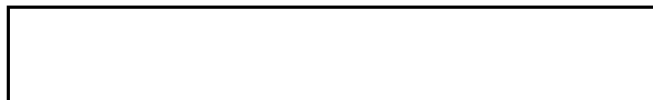

MEMORANDUM FOR: Chief, Manning Branch, MMPD

SUBJECT : Appointment Scheduling for Ground Radio Personnel (293X0)

1. It has been considered that a saving in time and candidate processing could be achieved if all personnel possessing subject specialty, being processed for OSA/DD/S&T could, before any formal processing, first contact PB/OSA so that arrangements for radio code testing could be arranged. These code tests consume approximately 30 minutes and immediate results can be obtained and telephoned to MMPD. In turn, those candidates failing the test could be returned to parent Air Force bases saving further processing.

2. It is emphasized that these code tests are equal to either a security test or a polygraph test in that failure of the code test completely nullifies the value of the candidate to OSA.
